

ISSN 0907-4449

Volume 60

Part 5

May 2004

Chlorophyll a/b complex

V-type ATPase subunit

Putidaredoxin mutant

DNA-drug complex

RNA octamers

*G. stearothermophilus*  
xylanase

Metal coordination sites  
in proteins

Time-resolved data and  
SVD

Proteolysis in protein  
crystallization

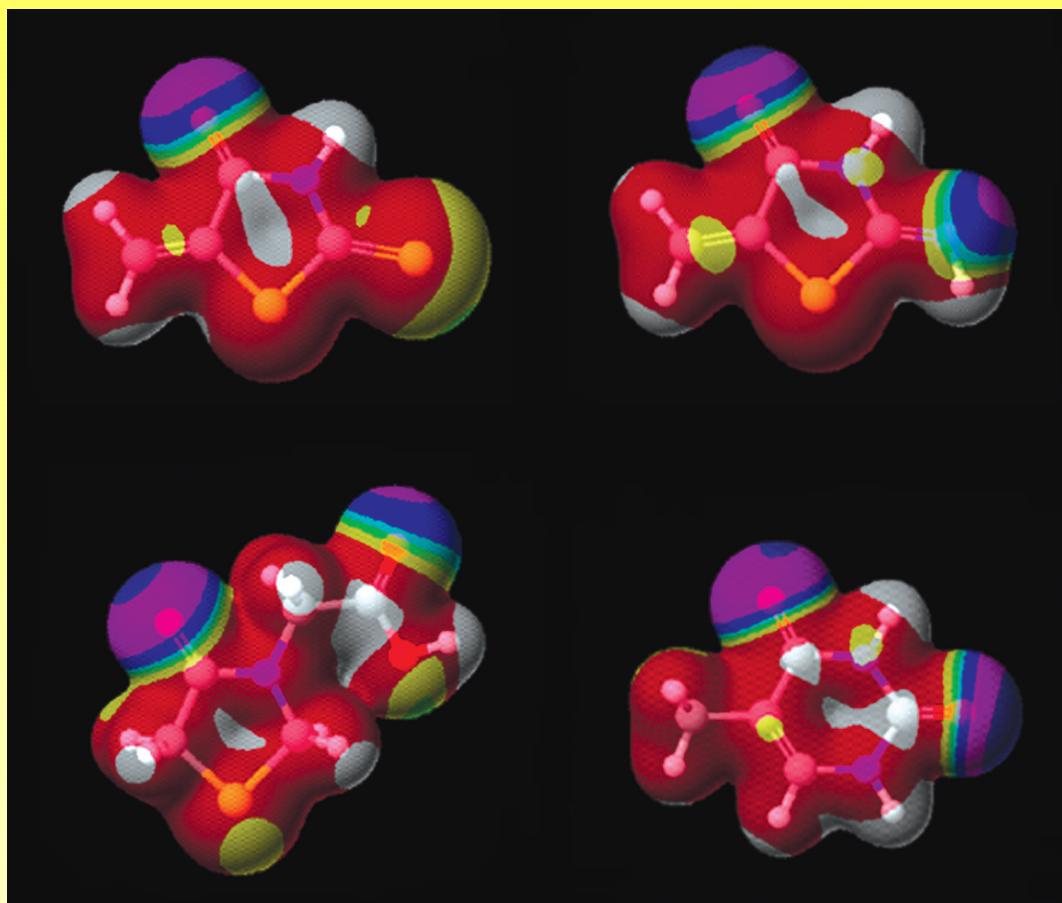

Feruloyl esterase

New sample environment  
for crystallography

*E. coli* OsmC protein

# Acta Crystallographica Section D Biological Crystallography
